

BHAVANA H

Computer Science & Business Systems · Chennai, India
github.com/bhavanahari08-art

PROFESSIONAL SUMMARY

Detail-oriented Computer Science & Business Systems student with hands-on experience in C, C++, Python, AI/ML, and full-stack web development. Adept at building real-world solutions — from IoT-based safety systems to AI-powered cybersecurity tools — with a strong foundation in analytical thinking, problem-solving, and team leadership.

E D Easwari Engineering College Ramapuram, Chennai | Currently Pursuing

B.Tech in Computer Science & Business Systems (CSBS)

Velammal Vidyalyaya Paruthipattu, Chennai | Currently Pursuing

PROJECTS

FlameWatch — *IoT Safety & Monitoring System*

- Developed a hardware and software-based system for real-time monitoring and automated safety response.
- Integrated sensors, actuator control, and IoT connectivity for continuous system tracking.
- Project registered under MSME/Udyam, highlighting its practical and scalable application.

AI Pre-Download Cybersecurity System — *Threat Prevention Platform*

- Built an AI-powered system that scans files and URLs before access to prevent malware and phishing attacks.
- Designed a real-time dashboard to monitor active threats, enable one-click termination, and automatically block malicious sources.
- Implemented SMS fraud detection and a secure link-based verification flow to enhance user safety across messaging platforms.

COURSES & CERTIFICATIONS

Cisco Networking Academy

- Introduction to Modern Network Defense
- Endpoint Security

ICT Academy Learnathon

- Self Presentation, Problem Solving, Customer Centricity, Financial Literacy
- AI & GenAI Basics, Microsoft Copilot, Cybersecurity Concepts
- AI-ML, Gemini API, Statistics / ML / DL

TECHNICAL SKILLS

Languages & Programming

Python · C Programming · C++ · Web Development · API Integration

Domains

AI & Data Analysis · IoT Systems · Cybersecurity

Soft Skills

Analytical Thinking · Problem Solving · Critical Thinking · Leadership · Team Management
